UFO sightings made by students, officials

Pacer News Editor

identified flying objects were reported over the campus Monday night by students and administration. At the same time, at least one UFO sighting was confirmed in Union City by police.

The objects, first sighted on campus about 8:30 p.m. were described as bright white with flashing or rotating red and blue lights. Some witnesses said they saw green lights attached to the UFOs.

Chancellor Larry T. McGehee said he saw a light which was blinking possibly with red and blue colors as he stood on the University Center patio. However, he would not say whether he considered the object a UFO.

Dr. Phillip Watkins, vice chancellor for undergraduate life, also said he saw "a light changing in intensity and color from white to red to green." He said he observed the object from the roof of Ellington Hall.

Watkins said he did not observe the object long enough to notice any movement but he added that the changing color and intensity struck him as "unusual."

Union City police said that two officers sighted an object over the northeast corner of the city. The officers observed the object for 15 minutes and described it as a white with red, blue and green flashing lights and moving in a north

south direction.

David Byrd, staff announcer at WUTM, said he received 10 telephone calls concerning the sighting of a UFO. He and Larry Inzor went outside and observed a "star-like object with intermittant red, blue, and green lights in the western sky, Byrd said. The object

Standing ovation

Gwendolyn Brooks, Pulitzer prize winning poetess, receives a standing ovation for her reading last Thursday night before a capacity crowd at the Humanities Auditorium.

Pulitzer -winning poetess fears black 'phasing out'

Pacer Staff Writer

Gwendolyn Brooks, Pulitzer Prize poet laureate of Illinois, voiced fear of the idea of "the black race being phased out of existance" during an outdoor

"I find disturbingly that a lot of people are saying today. there weren't any races'

complexion prevailing. I like the idea of a garden with daisies and dandelions and roses. That appeals to me more than a whole world full

of roses."

Ms. Brooks' poems concentrate on the black and the feminine experience. She does not see any correlation between the women's lib and black movements, though.

Brooks commented on Yoko Ono's statement that women are the niggers of the world, was that white women have been oppressed in a way that blacks have been oppressed. I don't think this is exact. I feel it (oppression) is more dif-

ficult to deal with on the black "I don't think anything is going to be given to blacks," Ms. Brooks continued. "I'm interested in blacks turning to themselves to make some solid advances together."

Watergate was not the great shock for blacks that it was for whites, Ms. Brooks explained. She said that the country has been deteriorating for some only because he has his own strength, but also, because he has our strength, which we refuse to use. It is the lesson of history that the oppressed must unite or perish we have no alternative except to link hands

"That is what I firmly believe," Ms. Brooks con-tinued, "and that is what motivates everything I am

Ms. Brooks, who has been described as the finest black poet in American literature, read her poetry before a standing-room-only crowd in the Humanities Auditorium on

Projected dorm system loss maybe conservative

By LARRY RHODES Special Assignments Editor

A University-projected loss of \$170,000 on its dorm system this year may be slightly conservative, according to SGA President Roy Herron. The dorms are 88.6 percent

full, with 317 vacancies, George L. Freeman, director of housing, said.
"I don't like the idea of

making 18-year-olds live in the dorms even though I realize the school has the legal right to do so,'' Herron said. He was speaking of the stricter enforcement this quarter of a rule in the University catalogue stating that the University has a right to make all single undergraduate students live on campus.

In an article in last week's Pacer, Chancellor Larry T. McGehee said stricter en-forcement of the dorm living rule was for economic reasons. He also claimed the action was part of an effort to equate the academic and nonacademic sides of student life.

The SGA cabinet met Monday with some University administrators, including McGehee, the four vice chancellors and the provost, and discussed ways of solving the dorm financial problem without having to make undergraduate students live on campus.

One possible solution they discussed was closing an entire wing of a dorm, since there are as many dorm vacancies now as there are beds in many wings. Closing a wing would save UTM money even if they didn't rent it for some use other than student housing, they said.

Second of a series

'Although the University would lose money on the debt retirement, they wouldn't have to pay for the maintenance on the closed wing. Herron said."Right now they are losing money on main tenance and debt retirement.

Herron speculated that the University may make the proposed wing close between fall and winter quarters. He said circumstances would determine how he felt if mandatory dorm living were still being enforced winter quarter

"I don't blame students for not liking being made to live in

quarter I don't know anything else that can be done," Herron stated. "All the money we lose on the dorms comes from our education.'

Some of the reasons Herron said many students had for not wanting to live in the dorms were the noise and the restrictions placed on them regarding having guests in their rooms. He said student feedback he had received made him believe the noise in the halls was the students' main reason for disliking

He said reports from floor counselors and resident assistants had made him believe restrictions on having visitors of the opposite sex weren't as responsible for the problem of low dorm occupancy as he had thought it was last year. The reports to which he referred showed that open houses weren't being taken advantage of as much as some people had expected

Possible improvements discussed in the SGA administration meeting included system housing in which each dorm would have different rules regarding noise and open hours, ranging from strict to liberal. This would give (See page 7, col. 3)

SGA President says No' to 'Fritz' film

Pacer Staff Writer

SGA President Roy Herron is opposed to possible SGA sponsorship and showing of the X-rated cartoon feature, "Fritz the Cat," in the University Center next quarter.
The cartoon is scheduled

tentatively to be shown in the University Center Ballroom sometime winter quarter However, no contract has been signed and showing of the movie in the Ballroom is subject to approval of the Entertainment Committee and the University Center Policy Board, Herron said.

After initial approval of the cartoon showing, it will be subject to approval University Center Policy Board. According to assistant director of the University Center, John Bucy, the board will not approve it because of the nature of the movie

recently interpreted the new supreme Court obscenity law to mean, in the case of UT movie showings, that "community standards" are standards of the average Tennessee citizens.

Bucy however stressed that this was the interpretation of one of several UT attorneys. He said, should such a case be contested, a court judge would make the final interpretation.

"I am opposed to SGA sponsorship of the movie period," Herron said. "I am merely reflecting, rather than imposing religious views which the students knew I had before they elected me, Herron added.

He also stated that he felt "Fritz" had no cultural value. Herron, however, has only one vote on the entertainment committee and, therefore, has no veto power in the case

Congressional race vote slated Tuesday

SGA Congressional elections will be held from 8 a.m to 5 p.m. Tuesday, according to SGA President Roy Herron. Members of each school or department will elect at least

one congressman with one extra representative added for each 400 people enrolled and major fraction above 400.

According to Herron, the allotment is an follows:
Agriculture, 1; Business

Administration, 2; Education

Check it out

Major changes made in two degree programs at University... Page 4.

Engineering, 1; Home conomics, 1; Nursing, 1; Economics, 1: Nursing, 1 Liberal Arts, 3; Law Enfor cement. 1.

Two congressmen will be elected from among members of the Interfraternity Council or Panhellenic Council, independent students, minority students and the freshman class. One congressman will also be elected from each residence hall

"I sincerely encourage anyone interested in bettering UTM to run and participate in SGA." Herron said.

Candidates must nominated and present a petition signed by 25 other students to the SGA office by 5 p.m. Monday. A 2.00 minimum cumulative grade point grade point averate at nomination time and completion of at least 45 hours at UTM-except for freshmen-are the requirements for congressman. The 2.00 average must be maintained (See page 3, col. 8)

Coed nightclerk on the job

By PATT ELMORE Pacer Feature Editor

A coed made her way into the G-H lobby at 2 a.m., obviously "feeling good." She tried to enter a men's

restroom which was occupied at the time After discouraging the young woman's attempts, the man inside finally shoved her into the room and held her there. When she got out, she fell to the floor, "laughing and

screaming. That was just one of the episodes that Lizabeth A. Wyant, UTM's first female nightclerk, has had to deal with. For fou weeks, Lizabeth has spent one night each week answering the telephone and interceding the problems which are part of G-H's night

According to George

Freeman, director of housing. a nightclerk's duties are to watch out for unauthorized people, report occurances and noises and assist residents in emergencies during the night. Lizabeth says all she

does is answer the phone.
"You get nice phone calls now and then--I'm saying this sarcastically," Lizabeth said. "It had been a nice night, a really nice night. Then this guy called up wanting to know about the weather in Denver. I told him I didn't know, then he told me to go out and get a paper and find out. When I told him I couldn't leave my station, he hung up."

Lizabeth paused a moment then shook her head. "Why would anyone want to know the weather in Denver in the

"I got cursed out really

royal one time, green eyes flashed behind her glasses. "He wanted to know where this girl was I told him I didn't know where she hung out and he let loose.

"Liz showed an interest in nightclerking when she was working as a switchboard operator. Freeman said. when asked how she obtained her job "So far. I haven't heard of her having any difficulties

Lizabeth said she has not encountered any problems which she couldn't handle. When asked what she would do if some young man started to make trouble, she smiled

Earl Well. (assistant director of housing) told me 'don't use any muscle Just call Safety and Security

Lizabeth's biggest problem has been trying to stay awake

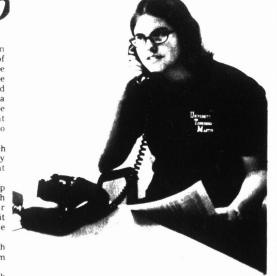

from midnight to 8 a.m. on Friday while the majority of the campus world sleeps. She does this by glancing at the clock every five minutes and pretending to study. She is a light sleeper and, though she confesses she has caught herself nodding, she has yet to

fall asleep while on duty.
"Every morning, I watch 'Farm Journal' on the lobby television. The rules state that I must remain in the lobby.
"It's too bad I had to drop

that 8 o'clock class," Lizabeth continued. "The instructor and I had already got into it about Bobby Riggs and Billie

Jean King."
Like Mrs. King, Lizabeth
has received ribbing from her male counterparts

This one male nightclerk kept saying, 'They'll never hire you, you're a girl.' Now I (See page 3, col. 1)

Liz Wyant, UTM'S only female night clerk.

Money not there when needed

During the first three weeks of fall quarter, the check cashing service at the University Center has been closed as much as has been open. Frequently, the cashing of checks has been discontinued during the lunch hour, one of the busiest times of the day. Although students have been promised a few extra hours on Saturday morning, to begin soon, so far things come to a stand still on Friday afternoon at 5

Granted, this is still a suitcase college to a large extent. Nevertheless, for those students who remain on campus, money is a necessity and one cannot always plan a weekend far enough in advance to know how much money he

University Center businesses, such as the Pacer Pantry, cafeteria and pool hall, continue to take in money after 5 p.m. and on weekends, but no provisions seem to be made about where a student is to get his money. It is impractical for a student to cash a large check on Friday afternoon in hopes that it will last through the weekend

Money matters just cannot be planned that well with so many unexpected costs that arise, especially on a college campus. One does not know what frustration really is until he turns up broke on Friday night or Saturday with no way to get money to buy a meal.

Last spring, the check cashing service was open additional hours at night and on weekends. During these hours, checks for limited amounts could be cashed. But sometime between spring and fall, this needed extra service was abandoned. The excuse given for this was that too many different people were responsible for the handling of funds and security.

Nevertheless, there is always at least one person at the information desk during these additional hours. It seems senseless for him to sit there twiddling this thumbs while he could be cashing checks

Of course, as it has been pointed out, this would mean one more preson handling the money and knowing the combination to the safe. But if the University is unable to find one person that can be trusted for this job, that in itself is a sad state of affairs.

Dig it

In search of 'Wishy-Washy'

wow, that alarm certainty is loud. It's 10 on Friday mor-ning. My decision is already made for me; classes must be attended and sometime during the day I will finally catch the new Dean of Students, Dr.

This I am determined. For two days now we have been missing each other and it is not my intention to allow my ineptness to be used as his cop-out. I will make one more attempt to contact him by phone, but when one has a roommate who knows it all about phones, then usually the repair service needs to be called and thus is the case. Now is the time for a hit or miss situation.

miss situation.
Shortly after lunch I'm on
my way. Somewhere between
the Student Center and Cooper
Hall I wonder if it will be worth it all or will Watkins live up to his nickname of "Wishy-Washy." I finally locate his office and notice his name on the door is handwritten on a small piece of paper. I think to myself about some small is the person responsible for its smooth operation. The analogy seems to fit so I smile

to myself.

It turns out to be my lucky day. Dr. Watkins is in and will see me in a few minutes. I wait and cannot help but hear the conversation he is having with two other students. To me their topic of discussion does not seem important, but to Dr. Watkins it is, no only because it is his job, but also since he is that sort of person. Finally I get my chance at him.

He soon understand that my purpose is both official (for the Pacer) and unofficial (for myself). My concern comes first from some reported stands that he has been summoned to take. Instead of taking the offensive or defensive like so many in his position before him, I find myself faced with a logical direct approach that strikes of confidence in oneself; ideas, and objectives.

ministrators truely concern about the individual studer about the individual major theme: presenting things in a variety of ways to meet the student's individual needs. His approach is one of cooperation. A cooperation between students and faculty and students and the ad-

ministration. His basic purpose is to gear all of the student's life toward academics, something which has been long lacking from that office. Next, he proposes that this university be made more realistic, that is, actions Finally he put forth hi criteria for what through his office; detract or add to the a

Feedback

To The Editor
College radio stations
throughout the country are
once again resuming full
operations. Stations that were
closed over the stations that reopening while stations that had operated on a limited basis are returning to full time programming.

College Radio-that ineffable, intangible creation that many of us call home is, like the warning on the plastic bag, not a toy. It's a communications vehicle to be used in communicating en-tertainment and educating future entrants into the broadcast industry.

At WUTM-FM, that is also our goal for the coming year. Of course, there will always be complaints from all sides charging lack of services or of communications. There will be other problems: how to relate to an audience, how to train a staff, and how to obtain sources for worthwhile public

service programming.

By nature, college radio is ever-changing. What worked yesterday won't always work yesterday won't always work today. The graduation and, therefore, influx of people will always continue on a regular basis. It is the responsibility of those leaving to teach and those entering to learn about

college radio.

There is something the WUTM listening community can do to help this educational process. That something is keeping in mind that radio is a two-way meduim where communication is vital Communication with the and the management car help WUTM be responsive to the ne

community.

Injustice seen in double standard on alcohol issue there will be several persons, including

"An unjust law is a code that a majority inflicts on a minority that is not binding on itself. This is difference made legal.

'On the other hand, a just law is a code that a majority compels a minority to follow that it is willing to follow itself. This is sameness made legal." -- Rev. Martin Luther King

From this it can be taken that the University's ruling and enforcement of forbiding alcohol on campus is legalized discrimination. The administration has stated time and again that it is not legal for students to possess or use alcohol on campus in general, and the dormitories in particular.

While some see an incongruity that a person 18 years old can drink legally off campus, but is violating the law if the drinking is done on campus, that is not the issue at hand.

The issue is that there is a law, be it good or oad, and that law is not being equally enforced on the University campus.

For those who would shout from the roof tops of the buildings that this is not the case, examine a case in point-- a case which is the most flagrant flaunting of the rule.

Go to a home football game--any home football game, and look around. Without a doubt

prominent alumni and benefactors swilling various concoctions between the downs, during the play, during the huddle, while the players walk off the field, while the players walk on the field, before halftime, during halftime, after halftime, before the final gun is sounded, during the "bang" of the gun and after the game while

they stagger to the parking lot in an effort to find where they parked their car.

This is not to say that drinking at a football game is wrong. But it is illegal. Yet those who make the laws and policies and those charged with their enforcement seem to turn their collective heads the other way.

These fans may be alumni, they may give several thousand dollars each year to the school; but that does not entitle them to flaunt the law while at the same time students doing the same thing will, in all probability, be quickly ejected from the game.

It would seem that if there is going to be enforcement of a law or policy, it has to be universal; least it becomes an unjust law--and an unjust law is really no law at all.

What is left is a mockery by those who profess to be the ones who are the staunchest defenders

of law and order.

Insight

Fate favors folk fair

favors. Take for instance the fact that Art James, host of NBC's "Who, What, and Where' TV show, is coming here to emcee part of the folk fair slated for Oct. 22-28.

Actually, James' appearance here will be one of those I-wouldn't-be-here-if-Ihadn't-been-there episodes. It all started when James and Haden met while in the Army

"I auditioned for some parts in some AFR (Armed Forces Radio) plays which Art was producing while we were in service," Haden recalls. "Art and I became friends during the time we were working in

these plays together. "Incidentally, Art is still active in play producing,"

Haden continued. "He has had some successes both on and off Broadway."

James was also a disc jackey while in the Army, according to Haden, and he has held many jobs as a country music disc jockey. After completing his B.S. in business administration, James took a \$40-a-week job at a station in sagina, Mich.

"He was doing earlymorning programs up there in part of the country where there are many loggers and others who like country music. Haden explained. Haden and James lost

contact with one another for awhile after they got out of the Army. Not too long ago, however, Haden looked up James while visiting in New

Yorker style, more difficult

Art James

than it would seem. "NBC wouldn't give me Art's phone

number, so I sent him a wire, Haden claims. "When he got it, he called me on the phone."

By LARRY RHODES

After establishing contact the events leading to James coming appearance here were much more ordinary. James had expressed a desire to visit some time off during the Folk him to plan to visit Haden's farm in Fulton and emcee part the entertainment programs for the fair.

"He really isn't a folk authority, but he has a deep love for folk and country music," Haden said.

So somewhere in this great maze of human events, UTM apparently got the good for-tune cookie! And we owe it all to the Army.

Since her father is a member of the Coast Guard, Lizabeth is used to being on the move. She was born in Virginia and was traveling at 12 days old. When she was two-years-old, her family moved to Hawaii. Later, she lived in Florida and Alabama and at the age of eight she found herself in New York City.

"I was a member of a New York street gang," Lizabeth grinned. "It had a grand total of four members. I don't know if they suspended people in the fifth grade, but we sure got in trouble.

"I got nabbed once for

trouble.

"I got nabbed once for throwing garbage on the school lawn," she continued. She thought a moment and then added, "I don't think I'd do that now."

Four days after graduation, Lizabeth went to North Cape, May, N.J., where her parents now reside. "It's not a town," Lizabeth said. "It's a retirement district. People go there to die."

She has come a long way

She has come a long way from sitting in her dorm room alone for her first four days of campus life. She is now McCord Hall Social Chairman, a member of the Inter-Hall Council and SGA representative from McCord. Soon, Lizabeth will be able

to say she comes from Dresden. Her father is retiring from the military and taking up residence on a 35-acre hog

"When we were little, he used to threaten us kids with slopping hogs," Lizabeth said. "We didn't know what he meant. We were so afraid we'd have to get out there and wash those pigs."

All ages attend

The Gwendolyn Brooks' reading brought people of all ages. Neil Graves, his daughter, Anna, and wife, Sue Lain, listen.

Town and campus join in project

By LINDA HOOPER

By LINDA HOOPER
Pacer Staff Writer
The findings of a community
development project, known
as Title I, Task Force Planning for Community
Development, has been
published under the direction
of Richard D. Chesteen, stant professor of political

science.

The project was a joint effort of the City of Martin and UTM, designed to identify Martin accomplishments and needs in public policy areas, Chesteen said.

According to Chesteen, the objectives of the study were designed to allow the city to draw from University, faculty expertist, and to get the University more involved in public service work.

ublic service work.
"It should show the city that

BARBARA

STUDENT

BANKROLL

the school cares about the community and also give the city credit where credit is due for its past achievements," he said.

said.
The UTM-Martin Title I
Project began in January,
1972 when Chesteen presented
the proposal to the State Title I
Agency and received a grant
through the Title I Community
Service and Continuing
Education Programs.

He then located a troup of interested faculty members willing to spend some time in evaluating various aspects of community life.

Each participating faculty member wrote an evaluative paper on a particular topic. These papers were then piled in the report along with other community statistics. Faculty members participating in the project include Dr. Jimmy Trentham, provost; Dr. Ted R. James, Biology; Dr. George Kao, Political Science; Miss Margaret Weaver, Assistant Professor and Librarian; Mr. Jimmy Alewine, Sociology; Mr. Langdon Unger, History; Dr. Charles Ogilvie, History; and Mr. Norvel Cook, Sociology.

Chesteen said he feels that the greatest recent advancements in Martin have been made in the areas of the Police Department and the sewage system. He hopes this booklet will encourage the city to plan for more improvements and aid it in generating needed public support.

Mid-South Bible scholar coming to conduct seminar

Dr. James B. Crichton, president of Mid-South Bible College in Memphia, will conduct a Bible study next Wednesday night at 7 p.m. in the University Center.

A graduate of Dallas Theological Seminary, Crichten is well known throughout the South as a radio Bible teacher and has a newspaper column. He is being sponsored by the Intervarsity Christian Fellowship. The first part of the study

will deal with prophecy as it appears in Daniel. The second part will be devoted to a question and answer period.

University not

lecturer and radio station consultant, the station has a diverse role.

iverse role.

"It has to provide entertainment, news, educational features and a diversity of services to all the audience it serves. It also becomes a laboratory because of the other features that can be offered," Freeland said.
"The program format should "The program format should be determined in accordance with community needs and

Robert Todd, station adviser, agreed that the station viser, agreed that the station should serve a variety of functions. However, he said entertainment would have to play the greater role.
"I may run into strong disagreement there," Todd said. "But, I say it for one reason. As far as I'm con-

Pulitzer winning

(continued from page 1)

"I can feel with her," one student said afterwards. "She understands what all life is

about."
"The best thing about her, so far as I am concerned,"
Robert Todd, assistant professor of English, said, "is her familiarity with the real her familiarity with the real life that you rarely find in writers. She has caught the earthiness of life around her when most people reject it." Mrs. Brooks told the students who filled the seats, sides stages and safe

aisles, steps and sat precariously on the walls surrounding the auditorium of the motto by which she lives, "When handed a lemon, make

She began her reading with "The Mother," a story of a woman's feelings about her abortion. Others included "Patent Leather," "The Preacher Ruminates Behind His, Sermon," "An Obit for a Young Led," and the found. Young Lady" and the favorite poem of Langston Hughes, another famous black poet, "The Ballad of Pearl Mae

She concluded with "The Life of Lincoln West," "Horses Graves," "We Real Cool," "Aloneness is Different from Loneliness" and her famous "Sadie and Maude."

is this campus, 5,000 people we have got to reach."

"If we survey this campus community and determine our format, then we would do well to format it exactly as they say in a survey situation," he said,

High said he would like to expand the range of programming for the station, but added that this would take extra funds. He said the budget has been increased from \$3,000 to \$7,000 this year. "Before we ever turned on the transmitter this year we had paid out \$4,100. We have working capital of \$995 per quarter," High said.

He said the station needs additional funds to furnish a wider variety of music and other programming. "We other programming. "We don't have the money in the budget to operate fully as we need to be doing. What we're doing, mostly music, is all we can do," he said. Watkins said it would be "very difficult" to get a budget increase for the station.

The subject of funding was to be on the agenda for the radio committee meeting yesterday. Also to be discussed was the station

The station's student leaders feel they have surmounted last year's problems by implementing a new music format and stressing the need for more professionalism, Montement expelied. for more professionalism, Montgomery explained. The new format, now in effect, offers a blend of many types of music. During two 15-minute segments each hour, announcers will play previously selected music such as jazz, soul, country, folk, etc. The remaining 30 minutes will be devoted to rock music as devoted to rock music as played last year.

In remarking on the role of the radio committee in planning the station format, Todd said, "Anything of a major consequence would be first approved by the committee. It is certainly within their perrogative to plan the format. Watkins said the campus radio is in a transition year and the role of the radio and the role of the radio committee should be looked at in that context, He

said of the committee, "I think they should be fairly involved in the overall format, but not so much in the day-to-day format. The role may change

A fear has been voiced by WUTM Program Director Larry Montgomery that the radio committee, in carrying out its functions, might try to correct problems which, he

feels, are not there anymore.

"What we're afraid of is that
the committee this year is
going to look at last year and
try to correct for last year; in fact, overcorrect, because last year's problems do not exist this year," Montgomery said.

Race

(continued from page 1) throughout his term in office.

"These will be epresentatives to representatives to the administration and faculty,' Herron continued. "If you don't vote, you really don't have much right to complain."

Students take cruise for credit

Pacer Staff Writer This past summer, 16 UTM students studied West Indian history beneath the Caribbean sun under the guidance of Dr. John Eisterhold, associate professor of history

"I could have taught this in class," Eisterhold said, "But this trip showed the true diversity of the West Indies and how they developed the way they did."

For 11 days, Eisterhold Debra Butler, Carol Cham-bers, Nancy Dugger, Suzanne Gallagher, Jan Gallimore, Mary Margaret Key, Debra Krauch, Carl Manning, Denice Mays, Mary Osborne, Lang Pulliam, Larry Bhodes Jane Pulliam, Larry Rhodes, Sandra Ross, Beverly Shumate, Charlotte Vincent and Carol Webb cruised the islands aboard the schooner Yankee Clipper.

They were exposed to different cultures, racial situations, world monetary problems and sea sickness

"Really, only a few students got seasick," Eisterhold said. There was one character on the ship who was sick all the turn at the ship's wheel. Debra Krauch and Beverly Shumate ventured up 110 feet to the crow's nest, Eisterhold said. Dancing to steel bands on board ship and meeting people were among other extracurricular activities

'Windjammer might have gone deep in debt if they had paid Debra Krauch for the time she put in at the wheel," Rhodes said. "And that goes without even mentioning the times she drove the launch to and from the ship and helped scrub the deck." 'The American dollar may

not be in as good a condition as it used to be, but we got four francs for a dollar on the French islands." Rhodes continued. "The captain of our ship said the exchange rate used to be better than that, but I still think Americans get a exchange rate down

Rhodes said many of the islands were a shopper's paradise since many of them are duty free ports. He said cameras, jewelry, booze and hand-made lace and embroidery were some of the many good buys in the islands.

ship," Eisterhold said.
"We sat up one night,"
Eisterhold recalled. "It was
such a beautiful night-the stars were shining. We talked about the Caribbean and told ghost stories. It was one of the most enjoyable evenings of my life." Eisterhold reportedly never went to bed that

Eisterhold began last January trying to arrange the tour and called the enthusiasm of the UTM administrators "remarkable." Soon, 16 students had signed up, and plans for the cruise were well under way.

During spring quarter the group met at night with Dr. Eisterhold's slide lectures of the area were given, plans for the cruise were discussed. A by Dr. Eisterhold was also studied. All of the reading involved in the three-hour credit cruise was done before the cruise.

The students flew from Miami to Puerto Rico to

Tortola they boarded The Yankee Clipper, a 197-foot schooner which served as the group's home for their voyage. A total of 75 persons

"I received letters expressing how worthwhile educationally and culturally the students thought the trip was." Eisterhold said, "One student wrote me it turned me into a more cosmopolitan person.' This is what I wanted

The cruise which lasted July 16-27 was sponsored through the UTM extension services. In late October or early November, Eisterhold will present a slide lecture describing the trip.

Currently, plans are in effect for another Caribbean cruise next summer. A private ship which will carry approximately 60-70 UTM students has been tentatively chartered to leave Antigua, tour the Grenadines and finish at Carcas, Venezuela. Students will be able to earn a Douglas Blom, assistant professor of psychology, will conduct a three hour course in environmental psychology,
Dr. Frank Windham, associate professor English, will teach three hours of Caribbean literature and

Eisterhold will again offer a West Indian history class.

"I'm determined to do it," Eisterhold said, "if the ad-ministration is willing. Right now I think they're behind us

100 percent."

The tentative date for the cruise is Aug. 6-19. Anyone interested is urged to contact Eisterhold in the History

Floor fuel

Dorms consume bulk of school coal supply

By JANE NOLAN Pacer Staff Writer

Dormitories are the main users of UTM coal, according to Will Dickerson, director of the physical plant, and statistics dealing with energy consumption at UTM.

According to Dickerson, Atrium Courts used 8.49 percent of the 4030 tons consumed during the past year

the largest amount used by any one building.

The physical plant, Austin Peay, McCord, Ellington and G.H residence halls each used 8.36 percent, Clement Hall used 8.11 percent and the University Center consumed 7.64 percent. More than a million square feet of floor space was heated, he said.

included 56,400 gallons of gas 28,200 gallons of fuel oil 72,977,800 gallons of water; 15,209,900 cubic feet of natural gas and 23,273,600 killowatts of

The water amount used at UTM is cut considerably due to the fact that much of it is sent back for purification, Dickerson continued.

He explained that the gas consumed is used between October and late April. Thus it is during this time that the heating units of the other buildings are working at their fullest capacity.

All 28,200 gallons of fuel oil is used in the Fieldhouse. This is for the purpose of heating the water for showers.

Changes in degree programs approved

A change has been made in the Liberal Arts degree program which will permit students to gain more indepth exposure to a particular field than existing degree programs offer, Dr. Norman Campbell, vice chancellor for academic affairs, said.
At the same time, new

changes in the Home Economics degree program will place more emphasis on consummerism and occupational home economics, as well as the traditional homemaking emphasis, Campbell continued.

Final approval for the changes in both programs were made last Friday by the UT Board of Trustees, the vice chancellor said. Students can register for either during winter quarter, he said.

Students participating in the new Liberal Arts program must either have a 2.8 overall average or, in the case of incoming freshmen, an 80 per cent probability of maintaining a C average, Campbell

There will be certain basic requirements in the program, but much of the student's course program can be arranged around his con-

SGA given homecoming responsibility for first time

Pacer Staff Writer

SGA will be in charge of the UTM homecoming for the first time this year, SGA Vice-President David Farrar said this week. Homecoming will be Nov. 10 when the Pacers play Florence State College "Before, it was always

under the management of the Office of Alumni Affairs," Farrar said. "We must work together and prove that we can do a good job."

Homecoming festivities will

begin Nov. 9 with a bonfire behind the fieldhouse before the Grass Roots concert. A box-gathering contest will be held and a trophy awarded for the most bonfire fuel brought. A pep rally outside the fieldhouse will follow the concert. Free hot dogs and soft drinks will be available, Farrar said.

A contest to pick the 1973 homecoming theme has been underway for the past few weeks. A committee of six students and two ad-ministrators met Wednesday night and selected the winner.
A 10-speed bicycle will be awarded the winner at 'he 'Blood, Sweat and Tears' concert tonight.

The Homecoming Queen and court will be chosen next Thursday and the deadline for Sunday. Entry blanks are being sent to all campus

blank to the SGA office, Farrar said.

Coed parking space under construction

A new parking lot under construction at UTM is ex-pected to ease some of the parking confusion and in convenience for Atrium and Clement Halls' residents, according to Ed N. White, safety and security director

The new lot will contain spaces for 98 cars and will be ocated on the corner of Lee Street and Moody Avenue. It will be split-level and well-lighted, and is scheduled to be completed in two or three weeks, said White.

White said he made a survey recently at 3:30 a.m. and found that 30 cars were parked illegally, with only three legal parking spaces available.

Residents of Atrium and Clement Halls may use any non-commuter parking lot until the new lot is available,

Library joins computer

Pacer Feature Editor The UTM Library is one of 84 southeastern academic institutions to join a computer network which will expand and expedite future services, according to Joel Stowers, director of libraries. Chartered last February,

the Southeastern Library Network will be employed in such areas as cataloging inter-library loan work, acquisitions, periodicals and

The system will include a television-type machine and key panel which will relay information to a central data bank. Within two or three days, a packet of catalog cards will arrive from the central computer.

'This will greatly cut down on typing," Stowers said. "It will also expedite many library functions."
"We are not doing away

with catalogers and cataloging," Stowers was quick to add. "For many of the older books, we don't have computer data."

So far, the computer network is still in the planning stages. The location for the central computer has not been chosen, but Stowers says it will be either Atlanta or New

Orleans.
"It will be over a year

system will cost \$1,650 for the first year's membership and approximately \$10,000 for the next. According to Stowers, the Venture Fund will pay much of the 1974-1975 cost.

"After that," Stowers said,
"We're hoping the economy of
the operation will pay for it-

Stowers also noted that library instruction programs are now being recorded on cassettes and the reclassification of books from the Dewey Decimal System to the Library of Congress

Miss Carline Fugua, head of the reference department, has developed two instructional tapes explaining how to use the library. One was employed during freshman orientation while the other is to be used for English 1130.

'Progress is coming along very nicely," Stowers remarked of the book reclassification. "We are a little ahead of schedule. We

are very pleased."

The reclassification, under the direction of William Corbin, assistant catalog librarian, is employing computer-produced labels which attach to existing catalog cards.

The process would ordinarily have taken years,'

nounced that the library now ranks second in open hours among Tennessee state universities and colleges.

The library is open 89 hours week, while the Middle Tennessee State Library remains open 91 hours each week. He added that the UTK undergraduate library may

remain open longer than UTM's.

'We're very pleased with the new hours," Stowers smiled. "The students seem pleased. I was disappointed with the use of the library this summer, but I'm sure it will improve."

Stowers said the students were using the expanded

during the evening. He also said he hopes students will use the Saturday afternoon hours. Library hours are:

7:50-11 p.m. Monday thru 7:50-6 p.m. Friday

2 p.m.-11 p.m. Sunday

Students and curricula chosen in Honors Program

previously enrolled students have been selected to par-ticipate in the new Honors Program here, according to Dr. Harry M. Hutson, program director.
The freshmen were selected

during the summer on the basis of their ACT scores and high school grades, Hutson said. All of them had cumulative ACT scores of 27 or better, and A's or B's in

their high school courses. Six of the freshmen had taken advanced placement courses while still in high school, he said. Nine are enrolled in the School of Liberal Arts, one in Nursing and one in Education.

Previously enrolled students, including three sophomores, six juniors and two seniors, were selected on the basis of their grade point averages. "With one or two exceptions, all of them had maintained grade point averages of 3.2 or better. Six are enrolled in the School of Liberal Arts, five in Education and two in Agriculture. Hutson continued.
"The curriculum for these

students is designed to enrich their academic life, providing opportunities for independent study, special projects and small group discussion," Hutson said. "The core of each student's program is the Honors Interdisciplinary group of faculty members in order to pursue a major problem in depth."

In addition to the two honors seminars, a number of honors courses have established. These consist of special honors sections of introductory courses and a substantial number of regular courses that can be taken for honors credit, Hutson ex-

student in the

these courses. A total of 29 different courses for honors credit have been selected by the students in this year' honors group and 38 faculty members are involved in teaching them.
Grades of A or B are

required for good standing in the program and notations are made on official transcripts to certify the completion of each honors course as well as of the total year's program.

English Department offers tutorial help

Dorothea Norton, assistant professor of English, will offer a program of tutorial help for any student needing help in English composition through fall quarter.

The program, a part of the Venture Fund's Mastery Experiences, will provide needed help for students having resolutes in the control of the c having problems in grammar. paragraph development any other composition related

areas, Mrs. Norton said.

Mrs. Norton said she is encouraging any professor who has a student in need of assistance in writing to send explaining the type of problem

put removal ahead of the Indian's welfare." Based on his dissertation at

the University of Maryland in

1971, the book took seven

years of research and writing.

Satz received two Ford Foundation Ethnic Study

Grants in 1971 and 1972. He

teaches the minorities course

in U.S. History and last summer taught Indian history courses at the University of Upon the student's mastering or satisfactorily progressing in the problem area, Mrs. Norton will send the professor a signed memorandum stating that the student has progressed.

Mrs. Norton emphasized that this program is not

strictly for students who have been recommended by their professors, however. She said she encouraged any students who feel that they need aid in the area of composition to enroll on their own initiative.

The tutorial help will be The tutorial help will

available in room 119 of the Humanities Building on Tuesdays and Thursdays between the hours of 9-11 a.m. and 12-4 p.m. Mrs. Norton further stated

that if any students in need of help do not have free time on Tuesdays and Thursdays, they may contact her in her office, Humanities 132, and arrange for one of two senior student assistants to help him.

"I plan to approach the student's problems through their own writing, she said. "Not only do I plan to discuss the students own writing with them, but also among other things I plan for them to utilize current newspapers and prepared tapes dealing with writing and tapes and tape recorders for recording and listening to their own writing."

Seminar, which brings him Professor to publish Indian history book

Pacer Staff Writer

Dr. Ronald N. Satz. assistant professor of history, has completed his book "American Indian Policy in the Jacksonian Era", to be published by the University of Nebraska Press in spring 1974.

This book is the attempt to analyze the Indian policy of the era 1828-1849, Satz said. Dealing with the removal of Eastern tribes across the Mississippi, it covers what the policy was, its motivation, and its implementation.

"I expect the book to be controversial," Satz said. "It strikes a middle ground between two previous views, one being that it was harsh and brutal." Satz said he feels both are

partly right, adding that the policy was realistic in its time.

Financial aid brings \$1,424,700 to students

By BETH PRICKETT

Pacer Staff Writer
Financial aid awarded students this fall totaled \$1,424,700, according to William Fron, director of financial aid. This amount includes home scholarships, federal and local grants, bank loans, work study programs and other aid.

University scholarships awarded this year amount to \$189,000, Fron said. These are awarded for high scholastic achievement, need, leadership and character. Many of them are restricted to certain areas of study or the locale in which the student lives, he

These scholarships may vary in amounts, ranging to \$600, one-third of the amount paid each quarter, Fron added.

The Nursing Scholarship Program awarded \$870,000 in scholarships to students interested in the two-year nursing degree. The Educational Opportunity Grant awarded \$119,000 to transfer and under-graduate students. The amount of assistance given each student is determined by their

Law Enforcement Educational Grants provided \$10,000 to full time employees of publicly funded police, corrections agencies or the

promise to return to his employment for two years after completion of his education. The National Direct Student Loan, based on academic

achievement and proven \$190,000 this year.
Granted this year by the
Tennessee State Educational Loan was \$200,000. The loan is

made to Tennessee residents are unable to meet schooling requirements. The Nursing Students' Loan for the student pursuing the course of study in the two nursing program totaled

\$22,000.

In the college work-study program \$201,000 is being paid out Fron said. In this program the student works in offices on campus, through agencies of the government and in the surrounding area.

Aid from other sources. such as local scholarships, social security, bank loans, the GI bill, veterans and rehabilitation vocational totaled \$144,000. Fron said the enrollment

drop at UTM would not effect the aid given to students. "Since the need of the applicants has remained the same, the aid will not be effected," he said. "The enrollment in the coming year will probably increase and we may be awarded more funds."

DIAMONDS ARE UNBREAKABLE

It Is True That - Diamonds are the hardest material known to man. They can only be scratched by another diamond. Because of this hardness, they are used in drills and saws that penetrate the toughest and hardest materials. But, it is not true that they are unbreakable. Even though they are extremely hard, if they are struck a sharp blow, they can be chipped or broken. Most damage results from accidentally striking the stone on its edge. Many times the damaged stone can be repaired by recutting. Care should be taken to avoid tumbling diamond rings loose in a jewel box. Diamonds worn and kept with reasonable care will sparkle with great brilliance forever.

JEWELRY

THE SCORESHEET •

What a difference a few

changes can make.
Last Monday night the
University of Mississippi fired
their head coach and athletic director because football, a tradition at Ole Miss, had declined to the point of little interest or enthuaism among students, alumni and even the

17 years that the Rebels had not gone to a post season bowl. Before Saturday's trouncing of Southern Mississippi, the Rebels were 1-2 under coach Billy Kinard. After Monday's firing of Billy and his brother Bruiser, retired headcoach Johnny Vaught was rehired as coach and athletic director.

Saturday, the Rebels, and the fans were like two new groups. The team trounced Southern Miss. 41-0. The fans loved it and Johnny Vaught was a hero just as he had been three years ago when he left coaching because of his

Things at UTM have gotten as bad or worse than they were at Ole Miss. Since the 1967 Tangerine Bowl victory, the football program has gone down hill in a consistant manner--or decreased at an ncreasing rate.

Two years ago the record was 5-5 and last year's 1-9 season would be better

tificate

The problem is that we were promised a better team this year and from the looks of the first four games this season, it will be a promise unfulfilled

Last year, the coaches claimed they were rebuilding the team for this season. Nov seems that the coaching staff is falling back on that time worn excuse once again.

I think it is about time t stop rebuilding and produce The time is here to stop talking and start acting.

By all means a change is in order. Last spring Coacl Robert Carroll made change in the duties of his staff members but obviously it did not help. The time has come for a number of drastic changes to be made. UTM can not continue supporting the football program and the alumni will not continue contributing to a losing

Tommy Bryant, president o the Weakly County Alumnichapter would not comment on a solution to the problem but he did say that he would like to see a winning team at UTM, as would we all. And in this context, it would be safe to assume that a revision in the program in this case would mean a major overhaul.

looking for their first victory in five outings when Murray State invades Martin.

Kick-off is set for 7:30. The Racers will be fielding a much

improved team over last

Thus far this session the

Runningback Don Clayton is

Runningback Don Clayton is the Racers' top ground gainer averaging more than six yards a carry while Scotty Crump heads the receiving department with 10 yards a catch. The defensive unit is paced by linebacker Bruce

Farris and deep backs Paul Coltharp and Al Martin.

"Murray has a fine football team and a lot of momentum

after three big wins this season," said coach Robert Carroll. "Needless to say,

they will be solid favorites and

Open season

for spirit award begins Saturday

The first home game since classes began will bring with it the opening of competition for the Spirit Trophy. Any approved student organization is eligible to enter the competition

Nominations of groups or organizations must be made on official forms which will be made available by the committee at the University Center Information Desk, the Offices of Student Development and the office of the Sports Information Director. The trophy will be presented spring quarter at the annual Spirit Dance.

The competition will run

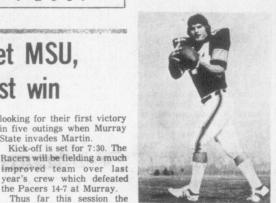

through the four remaining home games and the entirety of basketball season.

West chosen for strong play in Tech loss

This week's Player of the Week is junior tailback Marvin West from Panama City Florida. West is in his third year for the Pacers and claims two letters at UTM.

In Saturday's game against Tennessee Tech, West gained 48 yards in eight carries for a six yard per try average. West's longest run of the night came in the fourth quarter when he scampered 24 yards to the Tech 29.

The Pacers could not lost the ball three plays later

Grady Maddox

Racers have posted wins over Western Carolina 27-25, Tennessee Tech 18-17, and Morehead State 30-16. The Murray offense is led by quarterback Mike Pandolfi. GSC pass reception leader

Pacer star leads **Gulf South** in receptions

Wide receiver Grady Maddox of UTM is not letting the fact that his team is winless stand in the way of his attempt to break the Gulf South Conference pass catching record.

In four games this season, Maddox has hauled in 21 aerials for 245 yards, putting him far ahead in the league's pass receiving department, according to figures released this week through the office of

Commissioner Stan Galloway Maddox, a junior, is almost halfway to the league stan-dard of 48 set by Southeastern Louisiana University's Bobby Hill last year. Maddox has seven games remaining. His average of 5.3 catches per game is far ahead of the pace set by Hill last year when he averaged 4.4 receptions an

Pacers outshined by Murray: Jackson to pay visit Saturday

Pacer Sports Writer e UTM baseball to traveled to Murray State Saturday for a scrimmage game against the MSU Blue Racers. Although no score was kept the general concensus by observers was in favor of Murray State.

When UTM took the field, only one starter from last year's club, leftfielder Anthony Gilchrist, was on the field. All of the other positions, except pitching, were handled by last years subs or Fresh-men. Second baseman David Belote will not take part in fall practice due to basketball practice.

The scrimmage went just as was expected as the veteran Blue Racers outslugged the voung Pacers.

Overall the Pacer hitting was weak. Two players, however, had a good day at the plate. Dale Horn collected two hits and Mac Moore smashed a home run. Coach Swope summed up

his thoughts about his teams hitting by saying "Our hitting was not up to par because of lack of batting practice." Swope did admit however that it is a little early to tell just how good his team is going to

The Pacer defense made umerous fielding mistakes that cost them runs. Swope said that most of these mistakes were mental and were caused by lack of practice and the fact that his team has never played together before.

The veteran Pacer pitching staff turned in a strong showing. Noted for good performances were George Sykes, Joe Kuchar, Wally Brown and Mike Coggins. When asked to sum his
